Sakshi Puria (22EAOCS042)
Abhishek Verma (22EAOCS005)
Shekhar Chaurasiya (22EAOCS047)

ARYA INSTITUTE OF ENGINEERING TECHNOLOGY & MANAGEMENT, JAIPUR

Introduction

This project is about a web and mobile app solution that connects therapists, parents, and kids (the patient).

This project is used by therapists to judge auditory listening capabilities and cognitive ability of kids.

This provides benefits to all their clients by making the process of therapy easy, making the process paperless and digital.
